

## September 13, 1977 Private Appointment with Baba Hari Dass

Edit notes: The following was typed from notes handwritten at the time of the darśana. B indicates what Babaji wrote on his chalkboard, as read by the reader, and then as heard and noted by someone present. There was editing for format and IAST transliteration of Sanskrit terms.

[The appointment was with a young mother]

B: There are people in India who live by eating garbage. They are alive but they are dead.
